

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

ORDER NO. 88-154

NPDES PERMIT NO. CA0027791

AMENDMENT OF ORDER NO. 79-61
TO ADOPT SELF-MONITORING PROGRAM
REQUIREMENT FOR:

BERKELEY READY MIX COMPANY
BERKELEY, ALAMEDA COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region finds that:

1. The Regional Board adopted Order No. 79-61 on July 19, 1979, prescribing waste discharge requirements for Berkeley Ready Mix Company hereinafter called the discharger.
2. There is a need to revise the Order to include a self-monitoring program and the revised "Standard Provisions and Reporting Requirements", dated December 1986.
3. The Board has notified the discharger and interested agencies and individuals of its intent to adopt a self-monitoring program requirement for Berkeley Ready Mix Company.
4. The amendment of waste discharge requirements for this discharge is exempt from the provisions of Chapter 3 (commencing with Section 21000) of Division 13 of the Public Resources Code (CEQA) pursuant to Section 13389 of the California Water Code.
5. The Board, in a public meeting, heard and considered all comments pertaining to this discharge.

IT IS HEREBY ORDERED that the Regional Board amends Order No. 79-61 to read as follows:

Provisions C.4. and C.6 are amended to read as follows:

4. The discharger shall comply with the attached self-monitoring program as adopted by the Board and as may be amended by the Executive Officer.
6. This Order includes all items of the attached "Standard Provisions and Reporting Requirements", dated December 1986.

I, Steven R. Ritchie, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on October 19, 1988.

A handwritten signature in black ink, appearing to read "Steven R. Ritchie", written in a cursive style.

STEVEN R. RITCHIE
Executive Officer

CONSISTS OF

PART A, (dated 12/86)

AND

PART B

PART B

I. DESCRIPTION OF OBSERVATION AND SAMPLING STATIONS, AND SCHEDULE OF SAMPLING AND ANALYSES

A. FACILITY OBSERVATION

Station	Description
O	Observation location shall be at any point between the berm at the entrance to the ready-mix concrete facility and the Virginia Street storm drain located in the gutter at the bayward side of the facility property.

Station Observations:

O-1	Evidence of water and or foam overflowing the berm at the facility entrance.
O-2	Evidence of water and or foam along the gutter which drains to the storm drain.
O-3	Evidence of water or foam in the street storm drain.

Frequency of Observations:

Monthly, during the dry season (May 1 - October 1). Twice monthly, during the wet season (October 1 - May 1).

All "O" stations must be monitored according to the above frequency and reported quarterly.

B. DISCHARGE MONITORING

Station	Description
D-1	At any point where a discharge of rainfall runoff and yard washdown water occurs from the asphaltic concrete process and loading area, between the point of discharge to Virginia Street storm drain and the point at which all waste tributary to that discharge is present. Include a map indicating location of discharge.

<u>Station</u>	<u>Type of Sample and Frequency</u>	<u>Analyses</u>	<u>Units</u>
D-1	Grab sample once each calendar quarter, during yard washdown activity	Oil & Grease Total Suspended Solids Arsenic Cadmium Chromium (VI) Copper Lead Mercury Nickel Silver Zinc pH	mg/l mg/l ug/l ug/l ug/l ug/l ug/l ug/l ug/l ug/l ug/l pH units
	Grab sample during the first storm of each quarter (may be taken concurrently with yard washdown sample	Same as above	

A report shall be made by telephone immediately after occurrence of any discharge from the ready-mix concrete facility. A written report shall be filed with this Board within 7 days from the date of the discharge occurrence, and shall contain the following information:

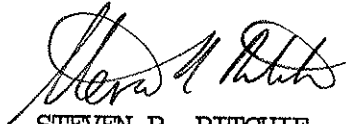

- a. map showing location of discharge
- b. nature of waste or pollutant,
- c. quantity involved,
- d. duration of incident
- e. cause of discharge,
- f. a contingency plan in effect, if any,
- g. corrective measures that have been taken or planned, and a schedule of these activities, and
- h. persons notified and when.

II. MISCELLANEOUS REPORTING

Within 15 days from the effective date of this self-monitoring program, discharger shall submit for the Executive Officer's approval, a method used to monitor the effectiveness of its wastewater recycling operation, and contingency measures provided to ensure that all wastes from the ready-mix operation are adequately contained on-site.

I, Steven R. Ritchie, Executive Officer, hereby certify that the foregoing Self-Monitoring Program:

1. Has been developed in accordance with the procedure set forth in this Regional Board's Resolution No. 73-16 in order to obtain data and document compliance with waste discharge requirements established in Regional Board Order No. 88-154.
2. Is effective on the date shown below.
3. May be reviewed at any time subsequent to the effective date upon written notice from the Executive Officer or request from the discharger and revision will be ordered by the Executive Officer.

STEVEN R. RITCHIE
Executive Officer
